

Archbishop Curley Computer Specifications

Vendor Information

Archbishop Curley High School is partnering with Whiteford Systems to offer a standard laptop model. For the 2024-2025 school year the model will be the Lenovo E14.

Specifications include: AMD Ryzen 7530u, Windows 11 Pro, 8GB RAM, 256GB SSD, 1080p Display.

There is an upgraded model available for students participating in Graphic Design or Engineering classes to ensure students can run all the required programs. This model's specifications are recommended but not required for these programs.

The computer comes with the option of a 4-year Extended Warranty and Accidental Damage Support. The Archbishop Curley Technology Office strongly recommends taking the warranty and accidental damage protection.

The portal will open in April, and the computer will be delivered to the school in the summer. Families will receive a notification to pick up the device once it has arrived.

The portal to purchase the computer through Whiteford Systems is located here:

Archbishop Curley Computer Specifications

Bring Your Own Windows Device

Archbishop Curley High School is moving to a Bring Your Own Windows Device model for the 2024-2025 school year. Students will have the option to bring their own device that fits the minimum specifications listed below or to purchase a device through Archbishop Curley High School's designated vendor as described on the reverse side.

Technology staff will be available to answer your questions during the Accepted Students Welcome Night on February 22, 2024.

Students are free to bring their own devices provided they meet the minimum specifications:

Size: 11" screen or larger

Processor: Intel i3/Core 3, or Ryzen 3 equivalent

RAM: 4GB

Storage: 128GB

Screen Resolution: 1366x768

Battery Life: 8hrs

Software Information

Archbishop Curley High School will be providing Microsoft Office, the Adobe Suite including Photoshop and InDesign, Sophos Antivirus, as well as any programs needed for Engineering or other classes.

Warranty and Accidental Damage Coverage

The technology department recommends at least a 2-year warranty and accidental damage coverage. This can be bought through a manufacturer like Dell or HP, or through a retailer like Best Buy or Microcenter.

Additional Information:

If you decide to bring your own device, please purchase a new device through a retailer or device manufacturer.

The technology office will be able to offer limited tech support and troubleshooting for devices depending on the make, model, and if they were purchased through the school. Loaner devices will be available for students if their personal devices are undergoing repair or inoperable. A charge will apply for a loaner needed for longer than a week.
